

A Way Out of Being Stuck

By John Miller

Life is like an elevator. We're up; then down. Your wedding day is an up, losing your job is a down. Sometimes on rare occasions elevator's get stuck between floors. If you are on that elevator that gets stuck, there is a way out. If you look forward there is an emergency button; if you look up there is an escape hatch that you can use to climb out. In day to day living we sometimes get stuck and don't see a way out. If you're stuck on the elevator of life you have the emergency button of prayer and the escape hatch which is God's word that will lead you to a way out.

God gives us a way to escape our sins. He can take you higher than any mountain. He will make you strong and carry you. If you allow Him to, God will make you more than you thought you could be. In the elevator you can choose not to use the emergency button or the escape hatch to climb out. Likewise, in your spiritual life, if you are stuck, you can escape, push that button and pray. Put your life in God's hands. Your storms did not come to stay. To get unstuck pray and have faith in God.
